I About JBNU Graduate School I

With more than 121 graduate programs, JBNU graduate school provides diverse opportunities for Master's, Ph.D., and integrated degree Programs in a world-class research environment

- Over 800 of JBNU's 3,000 graduate students come from around 50 countries, creating a truly global academic community
- Experience academic excellence through globally and nationally accredited programs
- Brain Korea 21(BK21)* with 17 Project Division(Team)

NOTICE **What is BK21?** The BK21 project is a 'creative talent development program' that started in 1999 to create a stable education and research immersion environment for graduate students and new researchers who are the next generation of academics. The BK21 project is strengthening the research and education capabilities of graduate students through various scholarships, research support, internationalization projects, and non-curricular programs.

I Broad Financial Support I

- A 80% tuition reduction is offered to all graduate students for their first semester
- A 50% tuition reduction is provided to all students enrolled in the BK21 Project
- Various Scholarships based on academic and research performance

Scholarship type	Amount	Note
Academic Scholarship	•Up to 50% tuition	•Selected from students with advanced Korean proficiency
Research Scholarship	•50% tuition	•Endorsement from academic advisors
BK21 Research Scholarship	•Master: 1,000,000 KRW/month •Doctor: 1,600,000 KRW/month •PhD completion: 1,300,000 KRW/month	•Students participating in the BK21 project

*Scholarship amounts and eligibility criteria are subject to change

I Research Support I

Type	Support Details
Outstanding Research Awards	•Awards for graduate students with exceptional research achievements (KRW 3,000,000 for international conference participation)
International Research Project	•Funding for Joint international research projects
Research Skill Development	•Coaching programs to enhance thesis writing and research skills
Research Tools & Services	•Access to AI tools for research in AI Space

I On-Campus Housing I

JBNU Dorm	Meal	Campus location	Type & Equipment	Payment
	Weekday 3 Meals / or None	Jeonju / Iksan	•Double room with desk, chair, closet, air conditioner, etc.	Estimated Cost per Semester Approx. USD 650 ~ 1,200

*Each detail may vary depending on the dormitory building and circumstances

I JBNU Graduate School, Intensive and Sustained Support Program I

Jeonbuk National University (JBNU) Graduate School provides master's, doctoral, and integrated program students with an advanced research environment and opportunities to grow as global leaders.

- Ranked No.1 in Korea among national universities for international graduate programs ('24.), Joint-degree, collaborative research, and exchange programs with top 100 global universities.
- Participation in BK21 FOUR ('20.-'27.), establishment of a Physical AI Campus ('26.-'30.), and a beneficiary of the 'One National University in Each Province' policy('26.- '30.).

✓ **NOTICE JBNU BK21 FOUR Goals** Supporting future scholars through innovation in education capacity, Research competitiveness, Industry-academic collaboration, Internationalization. Currently 17 graduate departments are participating, spanning humanities/social sciences and science/engineering.

I JBNU Intensive Support, Lasting Impact BK21 FOUR I

- Strengthening full-cycle research support to foster globally competitive researchers
- Expanding Korean, scholarship, and living support programs for international students

Type	Details	Note
Education	• Interdisciplinary curricula, CORE industry-linked courses	• Master's & Ph.D. students
Research	• APC fee support, Graduate Student Research Society, Research Fairs	• Graduate students selected for their academic excellence
Career and Employment	• Career Development Program, JBNU-G Start-Up support	• Graduate students selected for their academic excellence Graduate students
Internationalization	• Conferences, global research collaboration, settlement support for international students	• Graduate students selected for their academic excellence

I JBNU VISION 2026_Physical AI Campus I

Type	Details	Key activities
Project Name	• Physical AI Core Technology Demonstration Project	• A mega consortium involving academia, industry, and research institutes
Project Period	• 2026 – 2030 (5-year intensive support project)	• KRW 38.9 billion allocated in Aug 2025 to launch
Project Scale	• Additional KRW 1 trillion to be invested over 5 years for AI technology infrastructure and applications	• Global Physical AI Forum (scheduled for Nov 2026)
Project Plan	• Establishment of AI Valley (JBNU Iseo Campus, starting 2026) as a dedicated Physical AI campus	• Industry-linked initiatives including: Industrial Robotics Si-Lab, Hyundai Physical AI Campus, Naver Physical AI Campus

* Consortium with Naver, Hyundai Motors, SK Telecom, and KETI

I JBNU VISION 2026 Plan_One Province, One National University I

Type	Details(planned)	Note
Nation-leading student education funding	• Raising per-student funding to 70% of SNU standard by 2030	• Per-student education funding expanded from 40%('25.) → 70%('30.)
Global-level Research Support	• Expanding joint-degree, credit exchange, faculty exchange programs	• Joint degree programs with top 100 global universities
Global-level academic systems	• Introducing AI-based convergence majors and micro-credential pathways	• Nano/Micro-degree programs for international student employment
Global-level student support	• Providing Residential College (RC) for all undergraduate students and full tuition & living stipends for graduate students	• Support for students with outstanding academic and research performance
